**B**lackbeard's Cruises offers  
liveboard scuba diving vacations  
to the Out Islands of the Bahamas.

You won't find a greater variety of diving –  
reefs, walls, swift drifts, blue holes, and  
shark dives! Our 65' sloops depart Nassau  
each Saturday to the Exuma Cays.

Colorful reefs teeming with marine life  
sit in depths of 15-80 feet and the walls  
plunge vertically to the depths! Voted  
“best value” in the dive industry, we offer  
our divers a combination of camaraderie  
and adventure! Our all-inclusive cruises  
are popular with outgoing individuals  
from all over the world!
