Cat Ppalu, a 65' sailing catamaran, offers a leisurely 6 night liveaboard adventure in paradise. Each Saturday, she sets sail from Nassau, Bahamas to the Exuma Islands. Popular with families and small groups, consider the Cat Ppalu your very own floating bed and breakfast with a captain and crew at your service. The journey will take you to scuba dive pristine walls, vibrant reefs, exciting swift drifts and blue holes! Enjoy the gin clear waters of the central Bahamas and visit excellent snorkeling sites, kayak the cays and inlets, explore the many uninhabited islands and beaches, and even fish for big game! Your trip on Cat Ppalu includes open bar and all beverages, all meals, water sports and diving are included in the price.

## accommodations

The Cat Ppalu can accommodate up to 12 passengers in 4 double cabins and 2 twin bedded cabins. Since this charter vessel is a catamaran, there is plenty of space for passengers to enjoy. The air conditioned main salon area is spacious enough to seat everyone together for meals and activities. There are two electric pump heads and two fresh water showers to be shared by guests. The forward trampoline area is the place to congregate and hang out while underway, enjoying the salt breeze and luscious scenery of the islands.

## diving

The variety of diving available in the Bahamas is amazing! There are beautiful reefs at all depths, awe-inspiring walls, swift drift dives, night dives, mysterious blue holes and plentiful sharks! Cat Ppalu offers as many as 19 dives per week for those who wish to dive their way thru the Exuma Cays! The snorkeling on most of the dive sites is excellent too for those that don't dive but want to view the brightly colored fish and vibrant corals. Tanks and weights included. Compressor on board.

## dining

Meals on the Cat Ppalu are skillfully prepared by our chef and served buffet style. American and Bahamian specialties including freshly caught fish are featured along with salads, fresh vegetables, homemade desserts and fruits. Satisfying snacks are served between meals. Beverages offered onboard include tea, coffee, juices, sodas, beer on tap, wine, rum and vodka. Dietary needs, allergies and your preferences are always considered when creating the menu for the week.

## shore excursions

There are plenty of eco-adventures offered in addition to scuba diving. Spend a few hours or a few days snorkeling, kayaking or stand up paddle boarding. Hike a nature trail on a nearby island, sunbathe on a deserted beach or try your hand at fishing. This is your charter so the schedule and how much diving and other activities to plan is up to you. You can do as much or as little as you like! The opportunities for rest and relaxation, and diving and activities are endless.

Cat Ppalu offers a leisurely  
liveaboard adventure in paradise  
perfect for family and friends
