 AURORA

accommodations

The Aurora has 8 comfortable cabins, and welcomes a maximum of 16 divers. Each cabin has an en-suite bathroom. The dining and lounge area is fully equipped with flat screen TV and boasts more than enough room for everybody to gather together. The Top Deck features an incredible Sun Deck, filled with cushioned loungers. It's perfect to either work on your tan or enjoy a starry night sky. This diving cruise will surely focus on two things – relaxation and scuba diving!

diving

Thousands of islands to explore and the best way is by liveaboard. From Komodo to Raja Ampat and everything in between, there is diving year round. You can encounter pelagics or hunt for critters, Indonesia diving has it all. Raja Ampat diving includes sloping walls, Arborek Jetty or seamounts like Blue Magic where you can be graced by Black Manta Rays and Blacktip Sharks. The diving around Komodo is some of the richest in the world. There is no such thing as a boring dive in Komodo. Adrenaline filled drift dives, muck diving, Manta feeding stations, and legendary macro diving are the things that make Komodo an unforgettable dive destination. Adventure, unknown dive sites, spectacular scenery off the beaten track... this is The Forgotten Islands. The Forgotten Islands are part of Indonesia's south Maluku province, a region located at the extreme south eastern boundary of the country and less than 200 nautical miles from the northern tip of Australia. Schooling tuna, trevally, hammerheads and looking for mandarin fish on epic night dives are all part of the Forgotten Island diving experience.

AURORA

adventure

Indonesia also offers so much to see above water. Every trip offers an opportunity to experience the local culture. Visit a small fishing village or an oyster farm. Plan a hike to Penemu's Landing, the famous rock island photo lookout or a morning trek to try and spot a Bird of Paradise, or visit Komodo National Park. We offer excursions to meet the locals, BBQ on Bat Island, kayak the inland waterways, birdwatch, and so much more. New species are being discovered every year. Come experience the world's most biodiverse environment aboard the Aurora.
