Rental equipment available

Multi-lingual Cruise Director

 AURORA

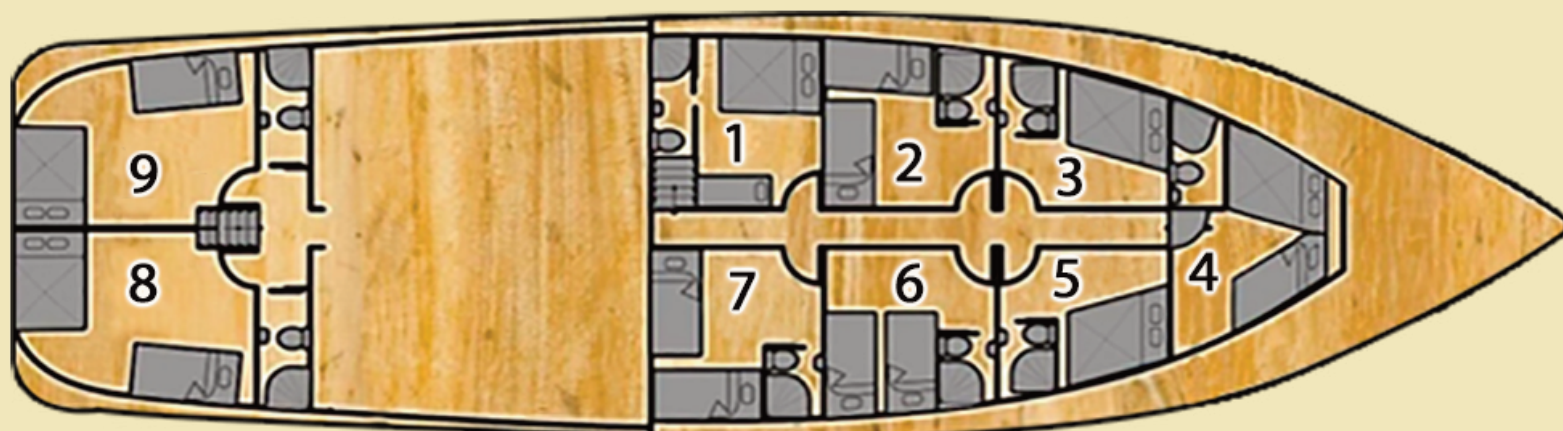

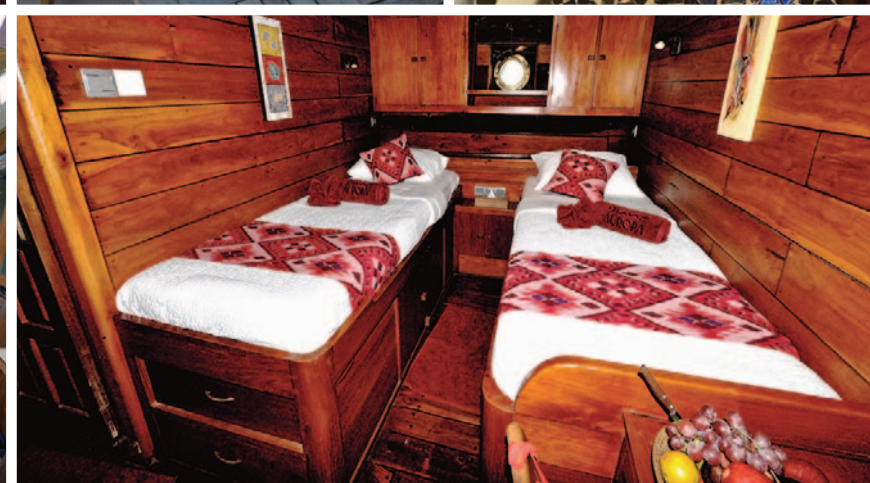

## accommodations

The Aurora has 9 comfortable cabins, and welcomes a maximum of 18 divers. Each cabin has an en-suite bathroom. The dining and lounge area is fully equipped with flat screen TV and boasts more than enough room for everybody to gather together. The Top Deck features an incredible Sun Deck, filled with cushioned loungers. It's perfect to either work on your tan or enjoy a starry night sky. This diving cruise will surely focus on two things – relaxation and scuba diving!

## diving

Thousands of islands to explore and the best way is by liveaboard. From Raja Ampat to Triton Bay and everything in between, there is diving year round. The remote nature of these islands has protected marine life and maintained their status as the world's most bio-diverse and healthy reefs. Raja Ampat is home to over 1,500 species of fish, 500 species of coral and 15 species of marine mammals. This region is a scuba diver's dreamland, where divers can hope to see manta rays, pygmy seahorses, wobbegong sharks and a rainbow of colors along the coral gardens.

The Banda Sea is in the middle of the Maluku Islands between the two top diving destinations, Papua and Java. The plankton-rich waters support reefs and sea mounts with abundant marine life. Excellent muck diving can be found around Ambon, where world-class macro life is waiting to be photographed.

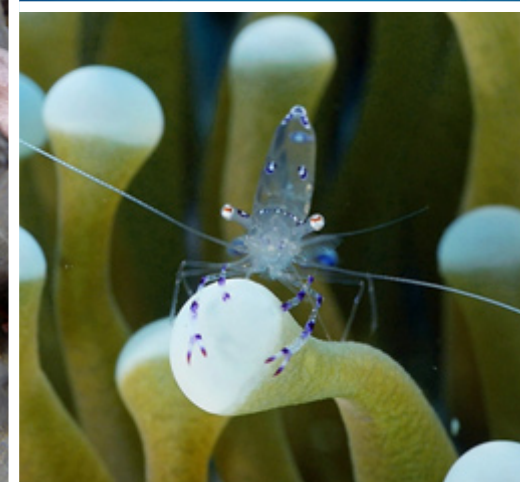

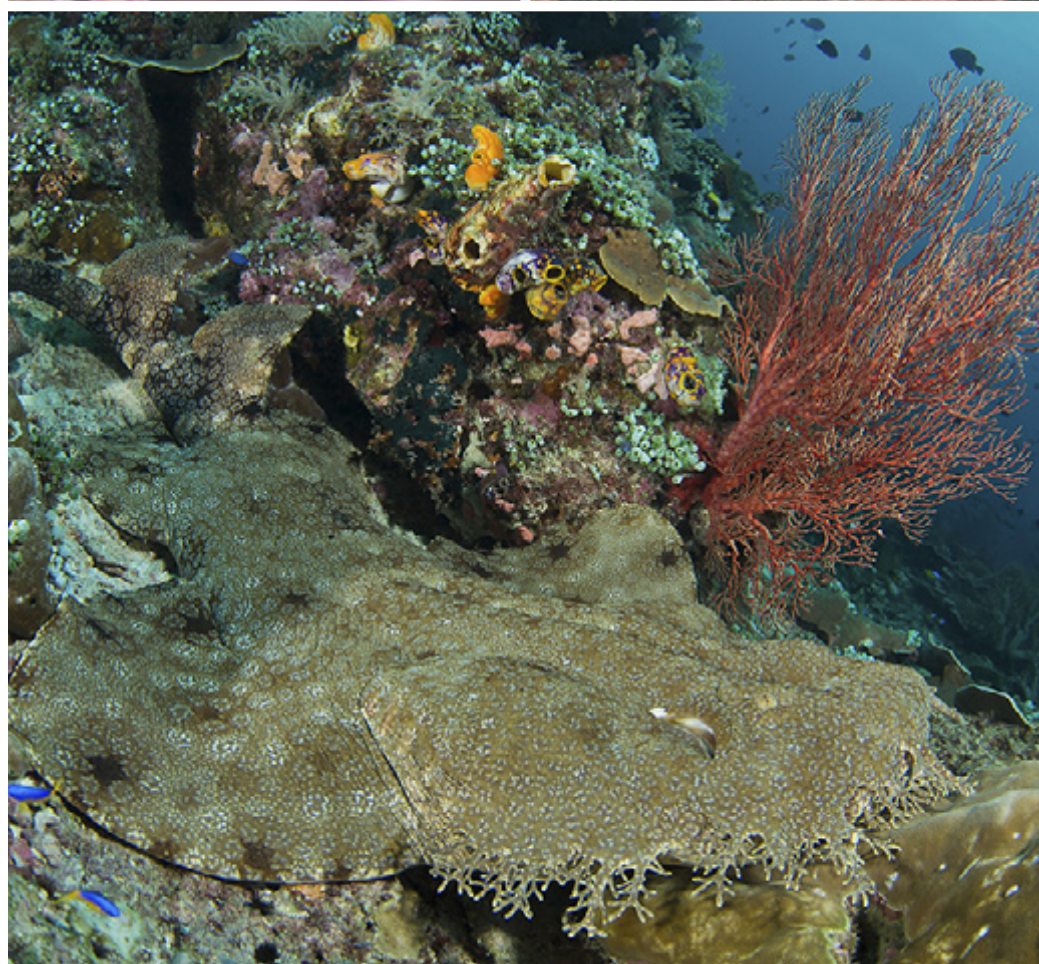

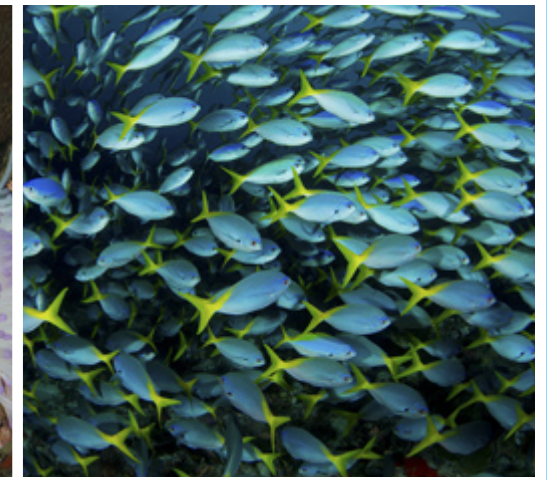

The Forgotten Islands are remote and isolated, stretching across one thousand miles of ocean with the Indian Ocean to the north and the Pacific Ocean to the south. This secluded setting gives way to crystal clear waters and pristine corals, the perfect journey for live-aboard diving. Here you will find good visibility, large animals and the fish/macro life associated with this highly biodiverse part of the world.

The logo for Aurora, featuring a stylized white outline of the map of Indonesia to the left of the word "AURORA" in a white, serif, all-caps font.

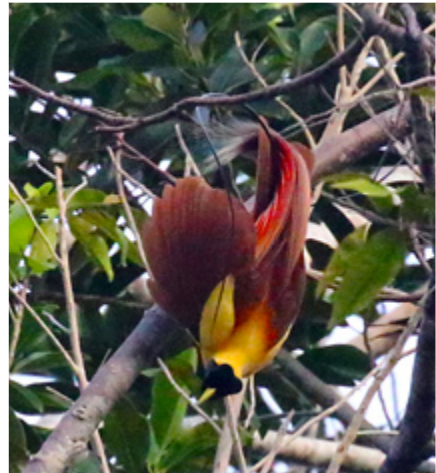

AURORA

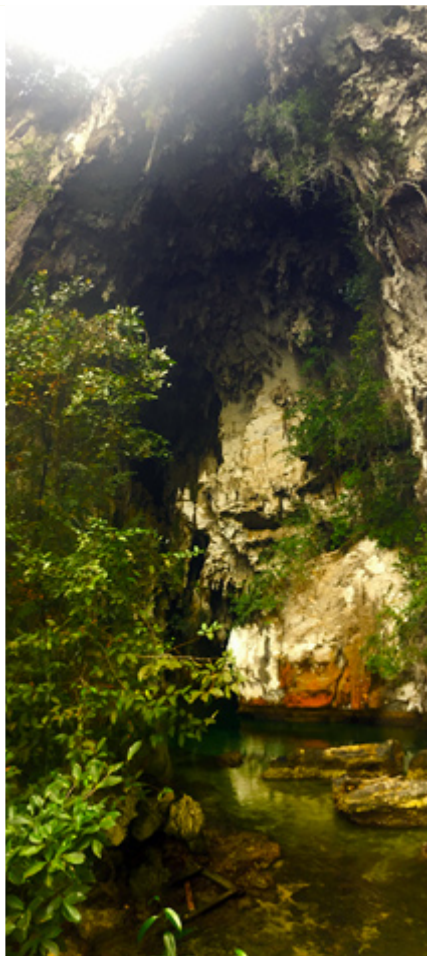

## adventure

Indonesia also offers so much to see above water. Every trip offers an opportunity to experience the local culture. Visit a small fishing village or an oyster farm. Plan a hike to Penemu's Landing, the famous rock island photo lookout or a morning trek to try and spot a Bird of Paradise. We offer excursions to meet the locals, BBQ on Bat Island, kayak the inland waterways, birdwatch, and so much more. New species are being discovered every year. Come experience the world's most biodiverse environment aboard the Aurora
