

A vertical photograph of a vibrant underwater coral reef. The water is clear and blue, with sunlight filtering through from the surface. The reef is composed of various types of coral, including branching and table corals, in shades of brown, tan, and white. Numerous colorful fish, including yellow tangs, blue tangs, and black tangs, are swimming around the coral. The scene is rich and detailed, showing the texture of the coral and the movement of the fish.
