During sunset we will start sailing inside Salah Bay in Sumbawa island where our next adventure awaits us.

This enormous bay in Sumbawa is famous for the possibility of encountering the gentle whale shark. Sangeang is a 2000 meter high, active volcano that sits northwest of the Komodo National Park. The numerous black sand beaches and bays that surround the island provide us with multiple dive sites. Ghost pipefish, nudibranchs, fluorescent black coral bushes and frogfish hide along the reefs and walls that border the black sand slopes. The night dives here are not to be missed: frogfish, ghost pipefish, boxer crabs and an unbelievable amount of nudibranchs.

Day 5: Banta Island and Batu Moncho (3 dives + 1 Night dive)

Another Hidden Gem situated right in the border of the Komodo National Park. We will spend the morning here for 2 dives. The afternoon plan will be Batu Moncho in the northwest corner of Komodo Island to enjoy another beautiful dive.

Day 6 & 7: Gili Lawah Laut & Gili Lawah Darat (6 dives + Night Dive)

Gili Lawa Laut, "Island Facing the Sea", is home to two of the best pinnacles in all of Indonesia, "Crystal Rock" and "Castle Rock". Huge schools of jacks, giant trevally, white tip and grey reef sharks, barracudas, dolphins, and a whole host of smaller reef fish that float amongst the fields of staghorn coral. A challenging site, but certainly worth a couple of dives! Discover the famous dive known as "ShotGun", kind of a pot, where the current attracts sharks, giant trevallies, tuna and sometimes Mantas. Not to be missed! A classic Night dive in the area will be the perfect ending for our first day in this amazing UNESCO protected area.
